Portfolio

Profile

Researcher and software developer connecting computing, education, and social impact. BSc in Information Systems from UFV (2019–2025) and MSc student in Computer Science at DCC/UFMG (2026–present). Research focus on computer networks, information security, intelligent systems, educational games, and software engineering.

Professional Experience

Federal University of Minas Gerais (DCC / UFMG)

Graduate Researcher / M.Sc. Student *2026 - Present*

- Research and advanced coursework in computer networks, information security, intelligent systems, and machine learning.

Federal University of Viçosa (UFV · Game Dev)

Game Development Teaching Assistant *2025 - 2025*

- Hands-on guidance and student mentoring, supporting the development and review of course materials in Digital Game Development.

Arthur Bernardes Foundation (FUNARBEN / UFV)

Research Fellow *2023 - 2024*

- Investigation of dynamic GeoGebra figures applied to mathematics education and educational technology.

Health Lake Institute

Frontend Developer (Volunteer) *2021 - 2023*

- Volunteer work (Dec 2021 – Mar 2023) in Science and Technology: migrating website to WordPress, creating wireframes using Figma, website administration and maintenance.

Federal University of Viçosa (UFV · Teaching Assistant)

Programming Teaching Assistant *2021 - 2022*

- Student mentoring and instructional support for learning programming fundamentals and data structures.

Federal University of Viçosa (UFV · Tutoring)

Programming Tutor *2019 - 2020*

- Individual and group tutoring, practical guidance, and reinforcement of introductory algorithms concepts.

Education

Federal University of Minas Gerais (UFMG · DCC)

M.Sc. in Computer Science *2026 - Present*

Thesis: Advanced studies in wireless networks, security, algorithms, and machine learning

Federal University of Viçosa (UFV · Rio Paranaíba Campus)

B.Sc. in Information Systems *2019 - 2025*

Thesis: Education in software and systems development, UX design, data analysis, and educational technology
